# PROGRAM DESCRIPTION

## What This Program is About

This is a professional certificate program that teaches canine nutrition and raw diet formulating for typical/healthy adult dogs and puppies.

Upon successfully completing the nutrition modules with a passing score of 80%, the student is certified to use the Canine Nutrition Professional CNP (Cert.CNP) designation after their name.

# PROGRAM STRUCTURE

## Program Level

This is a professional-level program that is conducted in a module format.

The program includes canine nutrition + diet formulating segments.

## Content Release Pace

This is an automated program with module bundles of 2-3 modules released weekly. Some modules contain quizzes. All quizzes are open-book.

## Program Length

21 modules released across 10 weeks. Students have 365 days (1 year) from enrollment to complete their program.

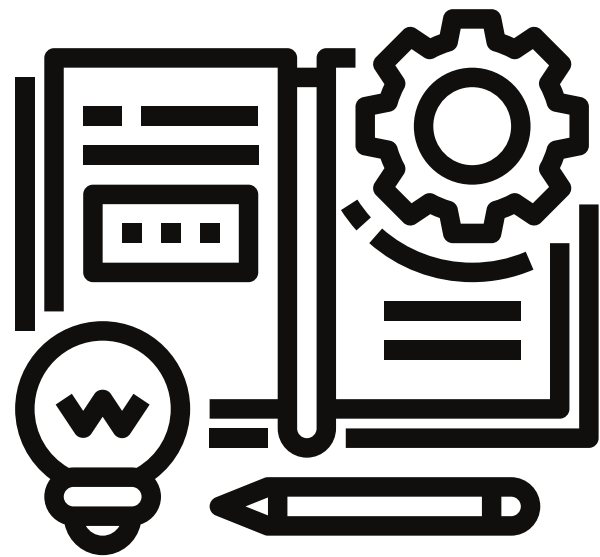

## Final Project

The final project is conducted in practical application during the nutrition modules.

Students with an overall grade of 80% at the end of the nutrition modules are awarded their Cert.CNP.

# GRADING SCALE

## Passing Grade

An overall grade of 80% is required to pass the program and earn your certificate of designation as a Cert.CNP

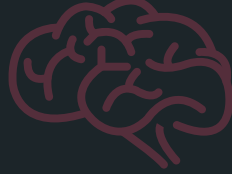

## Failing Grade

A final grade of under 80% is a failure to pass the program and a CNP designation will not be issued. Students can monitor their grades at any time throughout the duration of their program.

## Certified Designation

The certified designation of Cert.CNP is contingent upon successful completion and passing of the canine nutrition modules. If a student fails the program due to a final score of less than 80%, they will receive a certificate of completion.
